

### A few comments from our organic vegetable box customers

'I just wanted to say how delighted we are with our veg box. We collected it last night and have already tasted the lettuce, cherry tomatoes, broccoli, broad beans and potatoes. I can categorically say that they were all simply divine! The taste was delicious and its an understatement to say they are poles apart from supermarket veg. At this rate, we will be increasing our order to the large box and there are only 2 of us!!

Thank you so much - a wonderful and reasonably priced box.'

#### **'I like the variety of veg, shops have limited range'**

'I like the surprise, introducing vegetables I would not normally buy'

#### **'superb flavour ....very good price in relation to the quality'**

'It helps ensure I get my '5-a-day' ...I hate the thought of ingesting chemicals'

#### **'we liked you when we came on the open day'**

Your salad greens are the BEST I've ever tasted. I rarely send notes like this, but your product is fantastic. If I had a garden this is what I'd want to grow-- please don't stop, I'm a lousy gardener!

The veggie box scheme has been absolutely wonderful, and we have recommended you to all our friends

#### **By the way, I was completely satisfied with the veg box and also that lady who brought the box to us was very nice. I am really happy we found you**

The veg is amazing! I'm in love with your farm, thanks for the constant great service! :)

*And just to let you know we are forever recommending you so hopefully your getting more customers.*
